

# WeeklyReport\_2018-07-16\_07-24\_E

---

I test the DimensionReduction code all week

## Progress

### 1 Regular

- write 5 ACM problems
- learn a bit js in book
- do the kaggle titanic in [one blog](#)

next week I should complete this blog

I haven't done the class in Machine Learning and having it Deep and Structured(2017)

### 2 Project: DimensionReduction

- test the parameter for our algorithm
- modify the largevis knn code
- we find the better parameter this weekend and will make more research next week

### 3 Project: RSATree

- don't have much progress, just read the js code

I spend most of time in DimensionReduction project

---

## Recent perspective

Work	deadline	Tip
complete fist version of DimensionReduction Paper	Sunday	
study js in mdn		4 class
5 probelms on ACM	Sunday	
Machine Learning and having it Deep and Structured(2017)	Wendesday	one class
complete the kaggle titanic contest	Thursday	

## Long-term perspective

Work	deadline	now
RSATree Project	9.01	write the Rtree
learn pytorch	9.01	a new plan and has no decision yet
